Getting Started with Your Digital Products

When ordering Second Step® Middle School:

1. With your order, provide a staff member's name and their valid email address to make them a **Setup Administrator**, who will assign a school for each license you've purchased. This information is required. You can use your own name or submit the name of a team member.
2. Tell the Setup Administrator that they'll receive an email from support@secondstep.org with instructions for assigning a school to each of your licenses. Setup Administrators are automatically added as the first License Administrator. [Learn how.](#)
3. Next, the License Administrator adds users as Teachers or License Administrators to access Second Step Middle School. All assigned users will receive an email notice about program access. Note that you and other district or school administrators who wish to access the program should alert the License Administrator to add you to the role. [Learn how.](#)
4. Work with your IT team to ensure emails from support@secondstep.org aren't blocked. You may also check your Junk or Spam folder if you don't receive expected emails. Response to the emails above is critical for ensuring access to the program.
